Quality Very Poor, Receipts Fairly Good.

BULK \$3.90 TO \$4.15

One Load of Fine Heifers Sold to Dold.

The hog market yesterday opened 5 cents lower and closed a strong 7% cents lower, in sympathy with all other mar-kets. For almost the entire day the re-ed helfers, 25 in number, and averaging kets. For almost the entire day the reed, and a few loads held over from the day before. All these were readily disposed of before noon. The wagon trade was desultory all through the day, the few receipts coming in spasmodically, and very few car lots all through the early part of the day. Most of the day's trading was done after the real close, the late trains bringing in the bulk of the receipts, which languished for a while, and finally attracted the most of the attention for the day. The weak opening was entirely governed by the first reports from the other markets, both Kansas city and Chicago reporting slow markets and lagging trading. The local market however, was fairly active at the recorded prices, most of the early receipts being.

Pat McKinley of Freport was a shipper prices, most of the early receipts being through the day up to 5 o'clock the car lots came slowly in, most of them being sold at slight declines. The bulk of the receipts, however, came in late, were pended and awaited bidding. The markets more seem always to come in to take their nor seem always to come in to take their loss. the owners were halting about accepting with a car of hogs in charge of Mr. Gibthe market prices offered. Equally true bons, and sold to Woods.

Was it that the buyers, though active and E. B. Weatherby & Co. of Enid were on Most of the business was done late, and Johnson & Mallam, also of Enid, were the prices paid were well up with all the shippers of fair hogs on the late marshippers of fair hogs on the late markets reporting. No hogs soild under a Tije decline, while some of the other points reporter greater weak, hers. Kansas City closed 5 to 19c lower and very weak. The last bulletin from the latter point was: "Liberal receipts and a latter point was: "Liberal receipts and a decline in provisions caused a 5 to 19c drop in prices." A a few cars were left unsold at the close of the day's business, simply because the buyers and sellers could not get together. The quality for the day was very unsatisfactory, only a very few loads being at an fair, the rest being very common and mean, hard to ed, and the loads on sale were badly mixed iots, either thin and shrunken or rough
and undestrable. There were a few loss
enfored which were just fair, but these
did not serve to offset the bulk of the poor and common stuff. The outlook for the market today is not glowing, since provisions yesterday closed off. At Chiago yesterday the estimate for receipts was 130,090; 22,000 were received and the res lower. Provisions were dull and weak
and weak closes from 1520c lower. The
daily comparisons on the local market
are as follows: For yesterdy: Tops. 31.20;
buik of sales, \$1.9074.15; average weight,
20; receipts, 1.513. For day previous:

NEWS LARGELY BIARIST

Corn, Oats and Provisions Also on the Lose.

Chicago, May 24.-Selling by longs, together with weaker cables and the fine crop prespect, caused another break in wheat today. July is 1%c lower and Sepceipts of hogs was too light to establish a basis for estimating a market. Up to moon only a few wagon hogs were received at the yards in collections and of 27%c for pork, 20c for lard and 12% 15c ed. and a few loads held over from the experienced breeder and feeder and has for ribs. The bulk of speculative business in wheat was confined to September and December. The exceptionally fine weather, the brilliant promise for the growing crop, both at home and abroad, together with lower cables caused the cline today. Northwestern receipts were liberal, \$5 Scars, against 823 last year. Chi-cago received 467 car loads, against 12 the previous year. The Russian wheat ship-ments for the week were 2,272,000 bushels, compared with 3,800,000 bushels the week previous, and 3,424,000 bushels last year. Liverpool cables were 2 to 2% pence lower. Reports from a dozen or more countles in the northern Texas wheat belt state that fully half of the wheat crop was destroyed by te tornadoh last Friday. On-ly seven days of the May wheat deal are left now. Leiter, it is reported, continues to take all the car lots, paying about the May price for the contract grades, even taking the No. 3 that might be turned in-to contract by the mixers.

back by the rainy days of this month. It back by the rainy days of this month. It is pointed out that there have been only two days in the present month in which it has not rained. Outside of these there are no conditions which warrant the assertion that there is any change in the market. The heavy curtailment in the production of print cloths has proved a stimulating feature, although no sales at belter than 1 15-16c were reported. The export trade is also well sustained, but staple lines of dry goods in all lines are quiet. There is no change in the situaion of wolens. Staple cottons are still quiet. Print fabrics are quiet. There have seen further sales of stocks of dress goods and some fancy lines are concessions but outside of these there is not enough act-ual inquiry to warrant the piacing of salesmen on the road. Ginghams are still strong, with a well sustained demand re-One leading line has been ad-

# .KANSAS STATE FAIR... 1896-1897

Wichita, Kansas, May 18th, 1898.

To Whom it May Concern:

This is to certify that we, the undersigned, did grant to the Standard Square Inch Tailor System a diploma at the State Fair of 1896. And the date of November 28th, 1896, was placed there in the regular order of issuing said diploma, and we signed the same in good faith. E. R. POWELL, President. C. S. SMITH, Secretary.

# TWO BLUE RIBBONS! Cincinnati, May 24.—The Reds played stupid bail today and Brooklyn won, Attendance, 1,191. Score: RHE ANOTHER VICTORY FOR THE "STANDARD."

Kansas State Fair, 1897.

This makes forty-four contests in which the "Standard" Square Inch Tailor System has engaged, and in every one has come out a glorious conqueror. It has for years stood at the head of every system of garment cutting in this country, and the last two victories over the New York Tailor System and the French Tailor System (on every point of merit), stamps it beyond all question the greatest system in

The judges selected at the last State Fair were the most competent experts that could be obtained, and after carefully examining every detail connected with the merits of each system, they unanimously

awarded every point in favor of the "Standard," as there was no point on which it did not far excel in There was also another award given on Dress Making, and while our opponent claimed to be a New York dress maker, and had taught dress making for a number of years, yet when the truth was brought down to solid facts and they were presented before the people, it showed that her "loud talk" did not weigh in the balance with truth, honesty and justice, and a young girl of only 17 (a scholar at our school), and who had never done any dress making until she learned the "Standard," won the Blue Ribbon and first premium on every point of Dress Making. Thus it will be seen that our scholars are not only taught the foundation and true art of garment cutting, but when they are completed at one of our schools they Batteries—St. Louis, Sudhoff, Taylor and are prepared to do the highest class of dress making. No scholar is limited to any length of time or number of lessons in which to complete the course (unless they desire it), but all are taught every branch

of the business until they are perfect. Call at our school and see for yourself the work that is being done. Yours very respectfully, THE STANDARD GARMENT CUT Branch Dress Cutting Academy: 135 North Market street, Wichita, Kansas. THE STANDARD GARMENT CUTTING CO., Chicago, Ill.

Wichita, Kansas, May 18, 1898.

Dear Sir:-In reply to your inquiry, I will say that I have not authorized anybody to use my name in the statement that the Standard Square Inch Tailor System is not patented.

N. B. HAGIN, Patent Attorney.

Kansas City, Mo., May 19, 1898. RHE Misses Sanderson & Pyle, representing the Standard Garment Cutting System, Wichita, Kansas: I am just informed that a party in Wichita is stating and advertising that they can procure the Victor Measuring device from me in this city. I wish to say publicly that such is not the case, as the Batteries-Phillips and Lynch; Eagan Standard Garment Cutting company, of Chicago, has the exclusive control of all these measures, and no one can procure one at any price only through them, and any statement to the contrary is an absolute falsehood. Yours respectfully, WILLIAM VEITCH, Inventor of Victor Measure.

This is to certify that we, the undersigned, have carefully and thoroughly examined all of the patent papers connecting and covering the system of dress cutting known as the Standard Square Inch Tailor System, and we have found said patents regular and valid in all respects. We also find the instruction Batteries-Hahn and Twinsham; Cross that the trade mark known as the Square and Compass and Square Inch Tailor System is all duly registered in the United States patent office and protected by all laws of the United States and foreign countries. We have examined a great many papers pertaining to patents, and in all our experience we have never found any article so completely and thoroughly covered in all respects.

DALE & BIERER, by Frank Dale. ADAMS & ADAMS STANLEY, VERMILION & EVANS.

The character and high standing of the gentlemen whose signatures are attached to the above letters, is sufficient evidence that the "Standard" is all that is Batteries-Nercome and schrecongost: claimed for it, and that all statements to the contrary are without any foundation whatever. We respectfully invite the ladies of Wichita and vicinity to call and
